# Hospital Experiences?

# Summary of Current Provider Issues

1. Expectations re: receipt of final contracts?
2. Timely authorizations and payment responsibility; delayed authorizations creates delayed hospital discharge and payment responsibility confusion.
3. Confusion over Claims Forms (UB-04 or CMS 1500) and appropriate Codes for claims.
4. Housing Navigation is a separate Community Support. Bundling Housing Navigation and Recuperative Care might be a potential solution.
5. Update on CalAIM Provider Incentive Funding. Health Plans waiting for direction from L.A. Care. Providers need funding for infrastructure, technology and staffing.

# Updates on Provider Incentive Programs

Thank you for joining us.
